

Antoine Pelletier Glass Artist

Website : www.antoinepelletier.com

Email : info@antoinepelletier.com

Whether transparent, translucent or coloured, glass art is created from a multitude of elements. From a cold and rigid state to molten liquid, glass art goes through a metamorphosis process and becomes timeless.

Professional artist, member of Conseil des Métiers d'art du Québec (CMAQ) and Regroupement des Artistes en Arts Visuels (RAAV), Antoine Pelletier has developed a passion for glass art.

This passion motivated him to open his own glass workshop. Using kilns specially designed for fusing and thermoforming glass, Antoine creates unique jewelry and limited glass artwork in one of the most beautiful architectural historic buildings in the Old Montréal.

Created on site by the Montreal glass artist, his unique jewelry, limited glass artwork and utility glass accessories, will certainly surprise you by the array of colors and the simplicity of his designs.

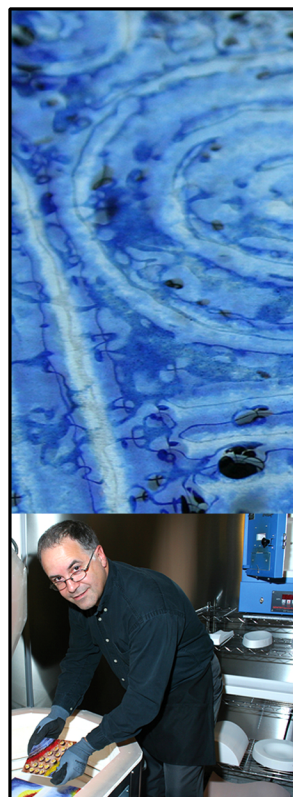

Visit Old Montreal and discover glass art at the Marché Bonsecours, a souvenir to bring home.
